Creative Clay Creations

...no experience necessary

Come and join other 'time-poor' and interested **women** in a practical and engaging workshop. No creative experience necessary!

Enjoy a few laughs together as you are guided by Mandy, an enthusiastic hobby crafter to create a simple jewellery piece from polymer clay. Listen as she shares some of her reflections about her inspiration and source of creativity.

Since the age of seven, Mandy Krueger only ever wanted to be a nurse. She achieved that, later becoming a midwife and used her skills in Australia and overseas. In 2011, Mandy moved from QLD for Bible College and has since called Adelaide home.

In that time, she has worked in a number of health-based and church ministry roles. In 2020, Mandy became Partnerships and Events Officer at Bible College SA.

Since childhood, she has considered herself "a crafty kid". If given any craft for Christmas, she would be happy all summer long. Now she tries her hand at anything, frequently being inspired by the creativity of others, but most often by the Creator's Creation itself.
